The purpose of this ordinance is to remove the town's current dog and animal control and to adopt in lieu thereof Wicomico County's Animal Control. The reason for that is Wicomico County's Animal Control people will be enforcing and doing the work. In order to allow them to do that if they use the one from Wicomico County it is the one they use for every day. This is a way for the town to adopt

Wicomico County's law.

#### **Committee Reports:**

**Police Chief's Report** – The report is included in the mail packets.

Chief Barkley reported as follows: 1.) PD made it through the holidays without any issues. 2.) Last month PD was still dealing with young men going through vehicles and may have made it to the Woodcreek development. Although there still has not been an arrest he believes they have identified the individuals. PD has been shadowing them and sometimes the young men know PD is there. They have not been able to continue their endeavors. On the Maryland side there have been no new crimes or patterns. 3.) There were a few on the Delaware side. Chief Barkley brought it to the Mayor and Commissioners attention there was an incident at Wawa Friday night where a young man was arrested by DSP for disorderly conduct. Delmar PD was on a different call but at that moment there was a fight/assault at Gordy's and they were unable to go to the call at Wawa. Officers did go to Wawa after they cleared the incident at Gordy's and that is why you will see on social media a video when the young man got arrested. 4.) PD is gearing up and getting ready for the new budget session. 5.) There is a lot of mandated training for the entire department this time of the year. First Aid recertification has to be done every two years. Some of the officers are in North Carolina right now going through voice stress analysis training. 6.) PD has an open position due to an officer taking a position at the Delaware Memorial Bridge. There have been quite a few individuals reaching out to PD to do applications. The police academies are in December and July every year. PD is accepting certified and noncertified applicants.

**Code Enforcement Officer Report** – The report is included in the mail packets.

Commissioner Shaffer reported: 1.) The town will have to get an MS4 Permit this year and there was a representative from the Alliance at Chesapeake Bay. Mr. Leigh provides technical assistance to small towns through EPA grants and MDE grants. Mr. Leigh is going to map out the town's stormwater including the elevations. Mr. Leigh is going to create an action plan for the town. Commissioner Shaffer said the entire moving forward thing we have all been apart of and it continues on through this. 2.) The Fire Marshal's Office decided not to recognize the Delmar Fire Department as a Maryland department about three weeks ago. So, it's locked them from doing their reporting. The issue is being worked on right now but it will certainly affect bonding. They are Station 4 in Wicomico County in the State of Maryland. 4.) The total calls for EMS were 173 and they went out of the district 12 times to Salisbury, Laurel 6 times, Parsonsburg once and Willards once. **2. Holly Campbell/Doug Marshall – New Home Addition (Final Plans) – 30503 E. Line Rd., Delmar, MD**

**Rd., Delmar, MD** – Mrs. Campbell presented a new home addition as presented per the attached drawings. Deputy Mayor Lenox stated this is an item that went through the Board of Zoning Appeals this past year. It's an expansion of a non-conforming use adding a third dwelling unit. They had applied under hardship circumstances and that is not under our jurisdiction that is under the Board of Zoning Appeals and they did approve that variance.

Deputy Mayor Lenox said the proposed 30 by 50 addition is to the rear of the home. Currently two units are there right now. It was determined at the Planning and Zoning Commission meeting the two units have been in existence for a long time and in fact they were included in the structure when it was annexed. The original building with the two units was established under county rules a while back. The site plan put into effect the 30 by 50-foot addition to go to a third unit at that location.

Deputy Mayor Lenox noted the recommendation from the Planning and Zoning Commission was favorable. The only condition had to do with resolving what might've been some confusion with the minutes from the Board of Zoning Appeals which he believes is resolved.

Mayor Jorden asked Mrs. Campbell if there was going to be a bathroom added as well. Mrs. Campbell answered yes. Deputy Mayor Lenox added in the addition there will be two bathrooms and a kitchen. He said it is a separate dwelling unit attached.
