Brief History

Delmar's history begins in 1859, when the Delaware Railroad was extended to the southern boundary of Delaware. Elijah Freeney and Winder Hastings, large estate owners, granted right-of-way to the railroad and donated land for a terminal. Mr. Freeney laid out the small town and built the first house and the first store. The Town grew and the rail line continued south. Many railroad employees settled here on both sides of the state line. In the late 1880's, many homes and businesses were established, thus leading to Delmar, Maryland becoming incorporated in 1888.

A fire in the Town in 1892, and again in 1901, devastated the area. Following the second fire, many buildings were rebuilt of brick and plans were begun for a water distribution system.

The Town has continued to jointly provide services to citizens and to work to overcome the effects of the line that divides them. A Centennial celebration was held in 1959, honoring the railroad heritage and the citizens who helped the community to prosper. As the railroad became less influential, the Town felt a period of limited growth and it became primarily a residential community. In recent years, public facility and infrastructure improvements have been undertaken to assist with the progressive foresight that officials and townspeople share.

The educational and extracurricular programs and sense of community pride are outstanding in Delmar. Students from both sides of the state line attend the Delmar, Maryland Elementary School under the jurisdiction of the Wicomico County Board of Education. Through the combined efforts of many organizations and individuals, the dream of a new, much needed Junior-Senior High School (grades 7-12) became reality in the summer of 2000. ♦

A Word From the Delmar Police Department

The Delmar Police Department would like to stress the importance of registering bikes. Registration increases the chance of recovery in the event of theft. Several stolen bikes have recently been recovered. If a bike has been stolen, call (410) 896-3131 to set up an appointment to see if the missing bike is among those recovered.

The Delmar Police Department reminds everyone to wear a seatbelt at all times. Chances of survival in an automobile accident are greatly improved when the proper restraints are worn. Many accidents happen close to home. Please do not think that a seatbelt is not needed for "just a short trip".

When a resident is planning to be out of town for more than a day, the police department should be notified either by website (www.delmarpolice.com) or phone. Trips can be much more fun when travelers have the peace of mind that comes from knowing property is being checked by their home town police.

Actions or behaviors that seem suspicious should be reported by calling the Delmar Police Department at (410) 896-3131 or 911. All concerns are immediately investigated and, in this way, a crime could be prevented. ♦

- *Cruelty to animals is prohibited. Owners are required to supply food, water, shelter with sufficient air and ventilation, and veterinary care as needed.*
- *It is unlawful to permit your pet to run at large (not under control by leash, chain or cord).*

Portable Basketball Hoops

To ensure the safety of adults, teens and small children that reside in our Town, we have enacted legislation that prohibits playing on all public streets and/or obstructing sidewalks. In order not to encourage playing on the public streets, we are asking your participation in not placing the portable basketball hoops on public streets, the edge of your driveway, the sidewalks or edge of your lawn. If you do opt to purchase a portable basketball hoop, please place it on your property in a location that will prohibit playing on the public street or hindering free passage of vehicular traffic and/or pedestrians' use of the sidewalks.

Playing on the public streets is an enforceable violation with a fine, by the Delmar Police Department. If a portable basketball hoops is identified on any of the prohibited areas aforementioned, the Town's Code Enforcement will tag it with an allotted timeframe to have it removed. If not removed within the timeframe by the property owner, the Town's Public Works Department will remove and discard.

The Town of Delmar has several park locations available for open play. As well as, a recently refurbished basketball courts located at Gordy Park; corner of South Pennsylvania Avenue and Walnut Street. Thank you for working with the Town to ensure the safety of all our residents. If you have any questions, please do not hesitate to contact the Town Office. ♦

Lead Poisoning Prevention: What Every Parent Should Know!

Who can get lead poisoning?

- Children from 6 months to 6 years old are the main victims of lead poisoning. But anyone who eats, drinks, or breathes something which has too much lead can get lead poisoning.
- Lead tends to build up in the body over time. So someone who takes in only small amounts of lead can gradually develop lead poisoning.
- A pregnant woman should also know that lead carried in her blood can pass to her unborn child.

How does lead affect health?

LEAD POISONING IS USUALLY A SILENT DISEASE.

- A child who consumes a dangerous amount of lead may seem to be well. But lead can affect the brain, causing learning disabilities and behavior problems. Lead can also affect the blood, kidneys, and other parts of the body.
- As lead poisoning becomes serious, some children have stomach aches, loss of appetite, or loss of interest in play. Some children may also become overly active or fussy and irritable.
- A blood lead test can help find out if someone has taken in too much lead--before there are any outward signs of illness. Ask your doctor or clinic about this test.

What causes lead poisoning?

- Lead-based house paint was used in most homes before 1950. Lead was still used in some house paints until 1978. Paint on your window frames and on porches is very likely to present a risk for children.
- Small children put things in their mouths. They chew on window sills, they eat paint chips, and they suck on their hands. Lead from crumbling paint gets into household dust, and anything that gets dusty (like toys, pets, and fingers) can then become a source of lead poisoning.
- Old furniture (cribs, play pens, chairs, etc.) and painted toys may have lead.
- Old or imported ceramic dishes may be decorated with lead glazes. Food that comes in contact with a lead glaze will pick up some of the lead.
- Many children will eat almost anything. Dirt, including soil from flower pots, plaster, ashes, and charcoal all may have lead.

For more information about lead poisoning, contact your local health department or Maryland Department of the Environment at (410) 631-3859, or www.mde.state.md.us. ♦

Delmar Utility Commission Special Notes

*All residential utility bills will be mailed to the legal, deeded property owner.
Tenants may stop by or call Town Hall to request a
copy of bill or the amount due.*

Interest on Delinquent Utility Bills

Delinquent utility bills accumulate an **interest of 1%** per month beginning the day after the due date. The due date is listed on the all utility bills and is generally one month after the billing date. Other penalties for late payments include a **\$10 administrative fee** on the seventh day after the due date.

- Disconnection for non-payment can occur as early as sixteen days after the due date. A **\$40 Disconnection fee** is added as of **8 A.M.** of day of scheduled disconnection.
- If you are making an online payment please allow 24 hours for payment to be notated on account.
- If bill is not satisfied and disconnected; before water service will be restored the entire amount of the bill and a **\$10 reconnection fee** must be collected during regular business hours (8 a.m. - 4:30 p.m.).
- Services can be restored **after hours up to 6 p.m. and the reconnection fee is \$30.** Payment must be rendered to Town Hall by 9 a.m. the following business morning or the evening of restoration. Payments can be deposited in our drop box located behind Town Hall.

- Residents with questions concerning their utility bills are encouraged to contact Town Hall upon receipt of the bill and prior to the due date. To help assist process payments as quickly as possible, residents should bring both sections of their bill to Town Hall when making payment.

Credit Card Payments

*The Town of Delmar now accepts credit cards as a form of payment for all town accounts and fees! We will gladly accept the following major credit cards...**Discover, MasterCard or Visa.** We'll also accept your debit card (as long as it has a Visa or MasterCard logo). *All non face-to-face credit card transactions are assessed a \$2.00 convenience fee.*

High Water Volume Users

*High volume users must register every year at Town Hall prior to August 15th to be evaluated for a sewer charge reduction in the utility bill for **June, July and August quarter only.** A High Volume User is a customer who has a pool, garden and/or excessive shrubbery and flowers. ♦*

Freezing Temperatures

There are a few precautions that may prevent costly repairs and the inconvenience of being without water if pipes freeze. During freezing temperatures it is a good idea to allow a trickle of water to run from faucets to avoid frozen pipes. If pipes are behind or inside cabinets open cabinet doors to allow heat to get to them. If a pipe bursts, contact Town Hall as soon as possible at (410) 896-2777 or (302) 846-2664 to disconnect water service if repairs are needed. After hours, call the Public Works Department at (443) 359-0894. ♦
