

Phase 1A of the Sewer Main Replacement Project of Delmar, DE

Teal Construction is currently delivering equipment today on N. Pennsylvania Ave.

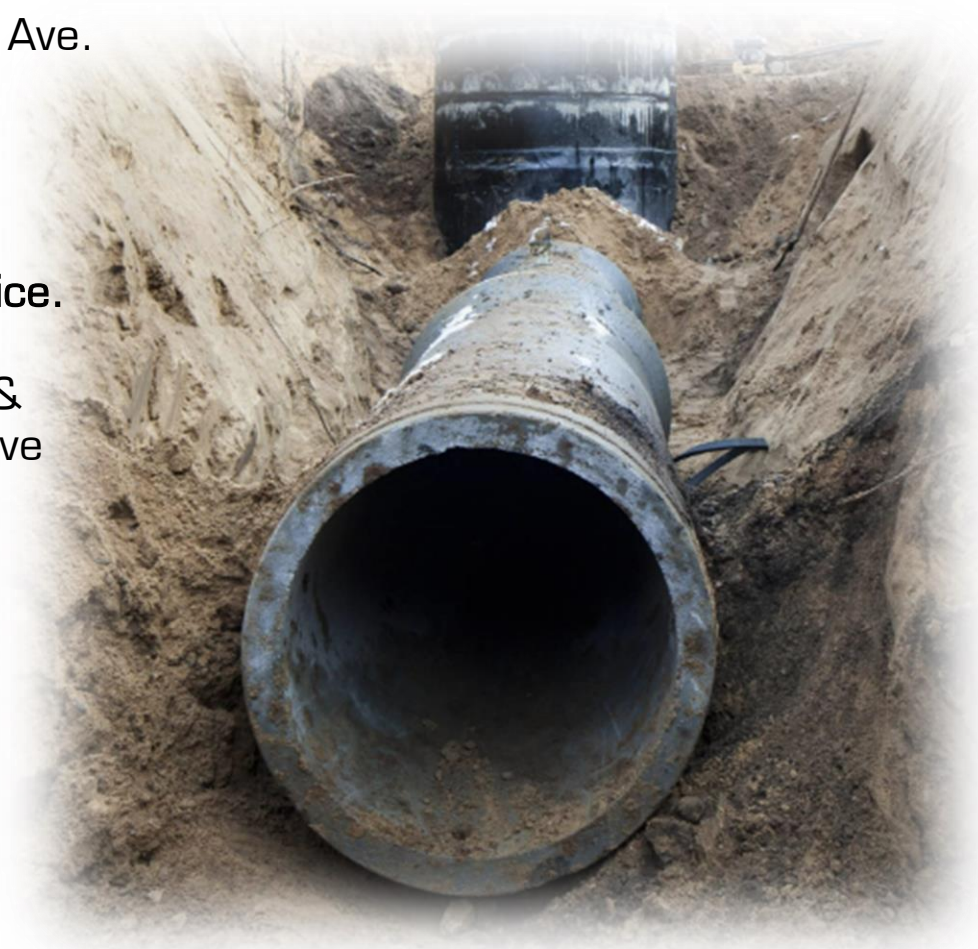

The starting point of this project will be
4th St on **Delaware Ave** and ending at 8th St.

Milling of the street will begin tomorrow and we apologize for the short notice.

This will create a temporary change of normal parking for our residents & guests. Also, there will be certain area during this project that will not have access. The goal of this project is to replace aging infrastructure.

We ask for your patience during this project and request you
use caution during construction.

*The best news, once the sewer line replacement is completed,
residents that are impacted will have a freshly paved street!!!*

Excuse our mess, we are making progress!
